SUMMARY

I am a passionate, self-motivated and hard-working web developer. Gained client experience making a company home page, and consistently creates personal projects. Interested in both front-end and back-end. Active in online community for web developers, and eager to learn new technology.

SKILLS

- HTML5
- CSS3
- JavaScript
- React.js
- Node.js
- MongoDB
- Git

PROJECTS

Brickhouse

Front-end Development (React.js)

- Worked in a team to develop a prototype for client's company website
